28 March 1962

MEMORANDUM FOR : Chief, Communications Staff, Development Projects Division  
SUBJECT : Communications Security  25X1A

25X1A

1. As a result of our OXCART Staff Meeting 28 March where communications security came up in several different guises, including voice broadcasts to and from aircraft, telemetry, etc., I would like to solicit your opinion as to the desirability of stationing  a full-time communications security officer with fairly broad powers to ensure proper management and utilization of the many communications facilities there. In a word is this feasible and desirable? Please advise.
